*Tartan: Romancing the Plaid* is a beautiful gift book about the Tartan, a beloved symbol of kin, clan and nation, and how it has evolved into one of the world's favorite fabrics. William "Braveheart" Wallace did battle in it, Queen Victoria decked Balmoral in it, Madonna donned it to strut around the stage and the fashionable Duke of Windsor's closet was jam-packed with tartan kilts. This book brings the history and an array of images to tell the story of tartan's humble beginnings and its current status as an emblem of great taste and high fashion.
